

TRANSGENIC STATUS STATEMENTS

- a. No transgenic varieties approved for commercial production in the United States.

The following statement is applicable for barley, wheat, sorghum, oats, sunflower seed, dry edible beans, chickpeas, lentils, and peas.

“There are no transgenic (identify agricultural commodity) varieties for sale or in commercial production in the United States at this time.”

- b. Some Varieties Approved, but not for Sale or in Commercial Production in The United States.

1. Mustard Seed

“There are no transgenic Yellow, Brown, or Oriental mustard seed (*Brassica hirta* or *Brassica juncea*) varieties for sale or in commercial production in the United States at this time.”

2. Flaxseed

“The United States Department of Agriculture has deregulated one variety of herbicide-tolerant flaxseed; but based upon information supplied by the developer, this variety is not for sale or in commercial production in the United States.”

- c. Some Varieties Approved for Sale and Currently in Commercial Production in the United States at This Time.

This statement listed below is applicable for soybeans, corn, and canola.

“Transgenic (identify grain) commercially produced in the United States have completed the necessary review under the U.S. regulatory process for determining the safety of new agricultural biotechnology products. This well coordinated regulatory process sets U.S. standards for human, animal and plant health, and environmental safety. The transgenic (identify grain) used for domestic purposes are the same as those used for export.”

MISCELLANEOUS STATEMENTS

- a. Roundup Ready Soybeans.

1. “We hereby certify that the soybeans may come from genetically modified soybeans of the type Monsanto Roundup Ready Soybeans which have been approved for import into the EEC under directive 96/281/EC.”

2. “The soybeans may come from genetically modified soybeans of the type Monsanto Roundup Ready Soybeans.”
 3. “Soybean meal is a processed commodity made from soybeans that may contain genetically modified soybeans of the type Monsanto Roundup Ready Soybeans which have been approved for import into the EEC under directive 96/281/EC.”
- b. StarLink Corn.

“The sample was tested using a method equal to or exceeding the performance of USDA’s GIPSA testing recommendations, as set out in Directive 9181.1.”
